CARBON, ALBERTA, THURSDAY, NOVEMBER 21, 1929

\$2.00 A YEAR IN ADVANCE

ARRANGEMENTS PRACTICALLY COMPLETE FOR 'STAR BRIGHT'

PLAY WHICH IS TO BE STAGED IN CARBON BY THE COMMUNITY PLAYERS ON DECEMBER 6TH HAS INTERESTING STORY.

The play "Star Bright," which is being staged in Carbon on Friday night, December 6th, by the Community Players, is progressing favorably and the posters are now out around town. The following is the story of the play and after reading it you will not be satisfied until you have seen and heard this comedy-drama on December 6th.

Next week we will print a synopsis of the play and also announce the cast of characters and other details.

THE STORY OF THE PLAY

The scenes of this play are laid in Mountdale, a village in the Adirondack region. Lemuel Bright, a pious, narrow minded "pillar of the church," and his wife, Honor, who is a college woman, had two daughters, Star and Sunshine. When Star was sixteen years of age she was sent to college, where, clandestinely, she met an actor named Arthur Pulver, who induced her to elope with him for the stage career she had coveted from her infancy. As a result her father disowned her, and for twelve years her name was never allowed to be spoken in the home; while the mother's grief over the father's attitude nearly cost her life and condemned her to an existence of almost hopeless invalidism.

Twelve years after, at the time of the opening scenes of the play, this same man comes to the neighborhood under an assumed name, represents himself as an artist, and securing board in the Bright family endeavors to tempt Sunshine to leave home with him in order to secure the college career her father has always denied her, because of her sister's experience, of which she herself knows nothing at all.

The elopement is frustrated through the intervention of Smith, a private detective, who has come to the house

as a boarder and been taken in by the different members of the family as the new minister, the new doctor, the new editor, the tax assessor and a phonograph agent, which is the role he himself has elected to play in the vicinity, as well as the lover of Bird Denton, a college girl, spending her vacation in the home, whose lover is a slightly different man with a slightly different name. In reality Smith has come to the village in the service of the absent daughter, Star, to prevent her betrayer from carrying out his nefarious designs against her sister.

A phonograph record is employed to reveal to the detective the real state of mind of both the father and the mother regarding the lost daughter, who comes in person to the old home in the guise of a boarder just in time to prevent her sister from being forced by her harsh father into marriage with the villain, as a means of saving her reputation, which he chooses to consider endangered by the attempted elopement.

The detective then reveals to the astonished family the truth of the elder daughter's legal marriage, and all the tangles are rapidly untwisted as the optimistic Sunshine is made happy by the promise of her longed-for college course, and the renewed joy of her mother and sister.

The comedy is carried by a neighbor Jake Hoover, and his matrimonial designs on Melinda Bendy, a romantic spirit employed in the Bright home, not to mention the soulful Ethelbert Ferdinand Delancy, whose mythical personality, when finally unmasked, is a strong ally in Jake's cause.

Townley—What were you raising on your wheat field this year
Subdubs: My neighbor's sheep, leg-horns and Rhode Island Reds.

CARBON CHESS CLUB ELECT OFFICERS FOR COMING SEASON

The Carbon Chess Club held a meeting on Wednesday the 13th inst., for the purpose of organizing for the present season. The following officers were elected:

Honorary President, R. Tenant.
President, C. MacPherson.

Vice-President, R. Heath.

Secretary-Treasurer, W.A. Braisher.

After some discussion it was decided to include Checkers as well as Chess in the program for this season, as there are several Checker experts in this vicinity, and it is expected that Carbon will have an entry for the Alberta Checker Championship this year. It was also decided to commence a local Chess handicap and the secretary was empowered to arrange team matches with Chess clubs in other Alberta towns. The regular meeting night was arranged for Wednesday of each week, from 8pm. to 11pm.

LITTLE ITEMS OF LOCAL INTEREST

—A tea, sale of work and home cooking will be held by the members of the Carbon W.A. in the Farmers' Exchange hall on Saturday afternoon, November 30th.

Percy Edwards has a new Nash sedan.

Mrs. C. W. Gray returned from Calgary last Saturday after spending a few days visiting with her daughter there.

The Carbon Old Timers' Association held their annual celebration in the Farmers' Exchange hall on Wednesday of last week and although a fair crowd was present, many of the real old timers of the Carbon district were not present. We have not a full report of this celebration but we hope to have same for next weeks issue.

Mrs. Geo. Wise has been quite ill during the past week, but we understand that she is considerably better.

Winter seems to have settled in with more zeal and the weather is now clear and frosty. The curling and skating rinks are being flooded and it should not be so very long before ice will be ready for these winter sports, unless another Chinook comes along.

A. F. McKibbin now has a new Victor Combination radio and gramophone on demonstration in the Elks hall. The new machine arrived on Monday of this week and is a dandy.

The Jolly Ramblers orchestra will again play in the Elks hall on Saturday night for a dance. The admission charge will be 50c.

Mrs. Gordon Livingstone left last Saturday to spend a week's visit with her parents at Olds.

FIRE ALARM SOUNDED FRIDAY NIGHT ABOUT 11 P.M.

The fire alarm was sounded in Carbon last Friday night about 11 pm., for the first time in some months and fortunately the loss was not great. The old barn at the rear of the United church was the scene of the fire and it was burned to the ground. The origin of the fire was not ascertained, but carelessness was no doubt the cause.

OBITUARIES

MRS. CORA GROSS KIRBY

The Over the Hill community lost one of their old timer members on Monday with the death of Cora, wife of Eugene Kirby. Mrs. Kirby had been in ill-health for some time but her sudden passing came as a shock to her many friends in Drumheller and district.

Mr. Kirby was on a business trip to Montana when he received word of the death of his wife.

Born on May 7, 1878, in Van Buren County, Iowa, Mrs. Kirby was married twenty years later and with her

RICHARD DIX CHALKS UP ANOTHER HIT

Versatility is Richard Dix's middle name. At least it ought to be. For almost a year he has played in nothing except heavy dramatic and melodramatic roles. Now he makes an about face and gives us a hilarious farce.

The new picture is "Sporting Goods," which will be the attraction at the Carbon Theatre on Friday and Saturday of this week. It is sure to attract all of Dix's regular fans, and, in addition, everybody in Carbon who enjoys a couple of hours of almost continuous laughter.

For this picture is funny. There are funny characterizations, and funny situations, and funny 'gags' all performed by a capable cast and directed in a sure-fire fashion by Malcolm St. Clair.

Dix is cast in a typical "young-American" role, that of a happy-go-lucky golf suit salesman, who gets into tremendous (and comic) difficulties when he allows a girl to think he is a multimillionaire. As the girl was portrayed by Gertrude Olmsted, he is not to blame at all, incidentally. Dix's deception gets him into deep water—some of it muddy water, too—but eventually he extricates himself, saves the girl's fortune and then gets one himself and her, too.

One of the funniest sequences in the picture was Dix's poker game in which the villain, played by Phillip Strange, and two other men try to cheat Dix out of his money, only to be foiled by their own trickery.

The Imperial Lumber Yards Limited have changed the name of the company and beginning with the first of the month the new name is to be the Imperial Building Supplies Ltd.

WORLD HAPPENINGS BRIEFLY TOLD

Russia, which led the world in wheat exports, before the war, now does not produce what it consumes.

Winston Churchill, former chancellor of the exchequer, has been elected lord rector of Edinburgh University.

Thos. Mann, widely known German novelist, whose best known work is "The Magic Mountain," has been awarded this year's Nobel prize for literature.

The Austrian government will shortly appoint a consul-general at Ottawa, Hon. P. C. Larkin, Canadian High Commissioner, was informed by the Austrian minister in London, Baron George Frankenstein.

It is reported that a sheep rancher in Nebraska has bought eighteen sections of land at Flinnigan, Alberta, along the river, upon which he intends to set out a flock of sheep numbering about 20,000 next spring.

Semyon A. Shestakov, chief pilot of the Russian "plane" "Land of the Soviet," which flew from Moscow to New York, announced the Ossadivakhim, Soviet Aviation Society, had refused to endorse his proposal to fly across the Atlantic ocean on the homeward trip.

Seized and condemned for illegal fishing in Canadian territorial waters on August 2 last, the United States fishing boat "Olympos" has been reserved for the use of the biological board of Canada, and will be stationed at Departure Bay, B.C., it was announced by H. W. Goggin, marshal in the Victoria admiralty district.

The former Kaiser from his exile at Doorn, has instituted a libel suit against the editor of a Berlin newspaper. The newspaper had said that the army was supplied exclusively with Krupp guns, greatly inferior to those of other firms, because the Kaiser was financially interested in the former Krupp works.

Started In Small Way

Adolph Gobel, millionaire frankfurter, laid the foundation of his fortune in a little sausage-shop in Brooklyn, near a public school. He fostered a taste among the children for piping hot "pups." The rage spread to adjacent seats of learning. So far into the moneyed row did Herr Gobel travel that his son can afford to play around the waters of New York with a luxurious yacht.

KEEP TRAFFIC MOVING

Pompeii never had traffic problems. In the human system, as in modern cities, the great need is to keep the traffic moving. A slight obstruction may cause very serious consequences.

The road to health in the human body—The intestine—is 32 feet long. Think how easy it is for this long tube to become clogged. Think how essential it is to keep it healthy and active.

You cannot alibi by saying "I cannot go because I have a sick headache." You cannot plead indigestion or biliousness or constipation. It simply isn't done. You cannot confess that you are a victim of self poisoning, from half digested food lying in the intestines, decaying and generating poisons which cloud the eye, blotch the skin and stupefy the brain. Don't put off or delay.

Try what a little friendly aid will do. CARTER'S LITTLE LIVER PILLS Red Packages all druggists 25 cents.

Gas Supply For Saskatchewan

Eagle Butte Oil Company, At Cypress Hills, May Solve Problem

The prospect of a natural gas supply for the cities of Regina and Moose Jaw and for towns and villages extending westward as far as Maple Creek, has been brought measurably closer with the announced intention of the Eagle Butte Oil Company to spud in a second well in the centre of the Cypress Hills gas field, about 290 miles west of Regina and close to the Alberta boundary line.

The development of the Cypress Hills gas field is being proceeded with in anticipation of marketing gas in Saskatchewan. According to the findings of government engineers it is believed that the Cypress Hills field offers the closest supply of gas which can be transported to this market. A pipe line from the Cypress Hills would reach the town of Maple Creek first, and then proceed to Moose Jaw and Regina, supplying all towns and cities along intervening route.

The whole problem has been carefully examined by competent engineers and has been pronounced feasible. Independent engineers who have been retained by the City of Regina, after an exhaustive examination of all possible sources of supply, pronounce the operations of the Eagle Butte Oil Company, Limited, as the most likely to result in the development of an adequate supply of gas for the Saskatchewan market.—Free Press.

For Automobile Protection

Ohio Penitentiary Inmate Patents New Safety Device

An invention by an Ohio penitentiary prisoner may make automobile theft more difficult than it is at present.

Lawton Hilemann, 22, of Akron, serving a sentence of from seven to 15 years for burglary, has filed with a patent attorney an application for a patent on his dual auto control ignition.

When the motor is stopped, it automatically locks the ignition, steering wheel and starting switch. The mechanism can be enclosed in a box six inches square and four inches high and mounted beneath the dash board.

Acids in Stomach Cause Indigestion

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, digestion is delayed and food souring, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist some Balsam Magnesia and take a little in water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Balsam Magnesia in powder or tablet form—newly liquid or milk-like, is harmless and is the most inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

Flew 11,500 Hours

Excellent Work Accomplished By Ontario Protective Air Patrol

To protect the forests of Ontario, one of the province's most valuable assets, the Ontario Government protective air patrol has this year flown 850,000 air miles or a total of 11,500 flying hours. This is 5,400 more hours than the total in 1928, and was done without injury to a single member of the personnel engaged or to any of the passengers carried in the planes.

The forest patrol service covered the vast area of Northern Ontario, from Lake Superior to James Bay, and has many notable exploits to its credit in carrying relief to stranded expeditions and conveying injured or sick persons from outlying posts to hospitals.

The Canadian National Exhibition held at Toronto, Ontario, is now in its 51st year. The value of land and buildings connected with the exhibition is \$25,000,000.

Wedding rings were made of agate and iron in ancient Roman times.

Lemonade was invented in the seventeenth century.

Feed Sore? Use Minard's Liniment.

Chest Colds Need Direct Treatment

It is an obstinate cold indeed that can resist the direct double action of Vicks. Rubbed on the chest, it acts 2 ways at once:

(1) Direct to air passages with its healing vapors released by body heat;

(2) Direct, like a poultice, it "draws out" the soreness.

VICKS
21 VAPORUB
OVER 17 MILLION JARS USED YEARLY

Centrally Heated

In a new settlement near Duisberg, in Germany, although there are 442 houses, there is only one chimney. All the houses are supplied with heat and hot water from one house, which occupies the middle of the settlement and all cooking is done by gas. Lighting is electric.

NERVES WERE BAD

**Could Not Sleep
Tired All Day Long**

Miss Florence Coutier, Bark Lake, Ont., writes:—"I was troubled with my nerves, could not sleep at night, and felt tired all day long.

"A neighbor came in to see me, one morning, and advised me to take

"The first box did me good and after the sixth box I was able to go back to my work."

Price, 50c, a box at all druggists and dealers, or mailed direct on receipt of price by The T. Millburn Co., Limited, Toronto, Ont.

Classifying the Others

Those who go to church in Canada, according to Dominion statistics are Roman Catholics, Presbyterians, Methodists, Anglicans, Adventists, Baptists, Brethren, Buddhists, Christians, Christian Scientists, Confucians, Congregationalists, Disciples of Christ, Doukhobors, Evangelicalists, Friends, Greek Catholics, Jews, Lutherans, Mennonites, Mormons, Plymouth Brethren, Salvationists and Unitarians. SUNDAY SCHOOL LESSON

NOVEMBER 24

THE HIGHER PATRIOTISM

Golden Text: "He made of one every nation of men to dwell on all the face of the earth."—Acts 17:26.

Lesson: The Book of Jonah.

Devotional Reading: Isaiah 55:1-7.

Explanations and Comments

A Great Command Disobeyed and Punished, 1 to 2. 10.—The word of Jehovah came unto Jonah, the son of Amittai, telling him that he ought to go to Nineveh, that great city, and cry against it. Nineveh, the capital of Assyria, was on the Tigris River, 600 miles from the Gulf of Persia.

"The word of Jehovah came unto Jonah. How was there a message out of the sky? As he walked, or slept, or prayed, did these words shape themselves from silence into speech? Augustine heard a voice under the fig-tree, at Milan; Joan of Arc heard voices in the forest of Domremy. We, indeed, have heard no voices. But all of us together have not compassed the boundaries of human experience. It is not wise, especially in these days of wonder in which it is our privilege to live, to deny the possibility of anything. What is impossible?

"This, however, is true, that the word of the Lord which came to Jonah has come also to a great many other people besides Jonah. God is all the time speaking to men. Messages from on high have in all ages and in all places been received by men. Whenever we are conscious of an urgent voice which says to us, over and over, 'You ought! You ought!' it is likely that we are listening to the word of God."—George Hodges.

Jonah disobeyed the voice. "Jonah says to himself" the first time, 'I ken how it'll be. After I've cried myself hoarse that Nineveh's to be destroyed, they'll begin to weep, and the Almighty'll change His mind and no destroy them a'. It's aye His way gin folk repeat. He's of great kindness and slow to anger, but He should keep His word. He takes no thought upon me, and what a fool like I make o' myself', crying that folk'll be destroyed when they winna be. It seems as though the Almighty didna ken His ain position to gang back on His word because folk commence to weep. But I'm His servant, and I ken my ain place; I'll no see Him place Himsel' in a wrong position, and I'll no see him place me in ane nether!" — Sandy Scott's Bible Class.

Instead of obeying the voice, Jonah went in the opposite direction, the story tells us. At Joppa he found a ship bound for Tarshish (the Phoenician colony on the southwest coast of Spain, then regarded as the very end of the earth), and went aboard.

God sent a violent storm; the sailors concluded that someone had offended his god, and they cast lots to discover the culprit. The lot fell upon Jonah, who acknowledged his guilt and advised them to throw him into the sea. Finding the effort to row back to land unavailing, the sailors prayed to Jehovah and then reluctantly cast Jonah overboard. The sea ceased from its raging and the sailors offered sacrifice to Jehovah. A great fish swallowed Jonah, and after three days cast him upon dry land.

Persian Balm the creator and preserver of beautiful complexions. Tonic in effect and wonderfully stimulating. Safeguards and beautifies the most delicately-textured skins. Cools and relieves all skins flushed or irritated by weather conditions. Magical in results. A little gentle rubbing and a youthful freshness and daintiness is instantly created. Invaluable for softening the hands and making them flawlessly white. Truly the perfect toilet requisite for the woman who cares.

To Attract Tourists

Yokohama plans an effort to compete with Shanghai for the title of "Paris of the Orient." As a first step in the scheme to attract more tourist trade to Japanese port city, Mayor C. Ariyoshi proposes to construct a large theatre and cabaret. Other night life attractions would be added. Tourists are now prone to stop in Shanghai, which is famed over the world for the gaiety of its cafes and dance halls, which contribute greatly to the wealth of that city.

Your Asthma, Too. The efficacy of Dr. J. D. Kellogg's Asthma Remedy is not something that is merely to be hoped for; it is to be expected. It seldom fails to bring relief, and in your own individual case it will do the same. So universal has been the success of this far-famed remedy that every one afflicted with this disease owes it to himself to try it.

New Sound Film Apparatus

Two young Norwegians have invented a new sound film apparatus which they say will cost one-fifth of that of imported machines, and equal the foreign product in every respect. A machine for the production of sound film has also been invented by them, and they are preparing to film revues.

Farmers tell WHY they Clip Cows

A CERTAIN farmer wanted the facts about clipping cows, so he wrote us for names of those owning clipping machines.

He wrote them. Now he himself is so pleased with the Stewart Clipping Machine he sent us the letters which made him decide the clipping machine is a good investment.

Here are some of them:

Maxville. "I have been shipping to Borden's Milk Plant regularly for 4 years and during that time I have never had a can of milk returned. I get cleaner milk and find my cows easier to keep clean so if for that alone I would say a clipping machine is a good investment."

Billings Bridge. "I always clip mine in the fall. Some half up and others that are inclined to be woolly I clip them all over, as I find they do better and much easier to keep clean, and it sure does reduce the bacteria count and I am sure we get more milk as well. I always get Score 1. I would not be without a clipping machine under any consideration."

Deshoro. "We have had a power clipper for years and would not do without one. It is a great help. The milk is easier to keep clean and pure. Keeping down lice sure will produce more milk."

HOW TO CLIP COWS

Manure, the principal source of bacteria, cannot collect and at milking time rub off into the pail if hair on udders, underline, flanks and tail is kept clipped short all winter.

Lice seem to congregate along the spine, which explains why some farmers clip six-inch width from tail to ears.

Farmers who have warm stables and drinking water inside, usually clip their cows all over.

Buy a clipping machine and make more money from your cows—with less work. Stewart No. 1 Clipping Machine is easy to use and anyone can do a nice job of clipping with it. Strong, sturdy, easy-running and will last for years.

At your dealer, \$15.00. Satisfaction or money refunded.

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, is loved by Grace Farrel, the cigarette girl, but he doesn't know it. He marries Molly Winton, a ballad singer, and wins fame as a composer of popular songs. When their baby, Junior, is about two years old, Molly elopes with John Perry, Al's best friend. She and Perry take the child which Al adores and sail for France. Al, completely broken by his tragic loss, disappears from Broadway and becomes a derelict. One day, as he wanders down a back street, he sees Grace Farrel on the opposite corner. He runs away and Grace hastens to Blackie Joe's club to tell him the news.

CHAPTER XXII.

"I just saw someone we both know," Grace began, with a tired, rather set little smile. "Al Stone."

"No?" Blackie put down his cigar. "Where?"

Briefly Grace related the circumstances of their encounter.

"So he ran away from you, did he?" said Blackie, nodding thoughtfully. "I can understand that—ashamed to meet his old friends. That always happens when a man begins to slip. And his clothes looked old, did they? Well, well."

Suddenly Blackie's expression changed.

"Grace, are you still fond of him?"

"I don't know," she answered frankly. "I was asking myself that as I walked along. Of course I like him if you mean only that. But if you mean love, well, you know, Blackie, love dies after a time. Or at least we pretend it does, to protect ourselves. . . . I shall always consider Al one of my best and truest friends—I know that."

Grace's eyes were half-closed as she spoke, as if she feared the look

that memory might bring them. And a controlled little smile set her lips.

"You told me once, Grace, that you'd never fall in love with anyone else."

"That's true—I haven't."

Blackie nodded. He knew that other men, some of them quite personable, had been attentive to Grace since Al left. She had gone to dinner with them, laughed and talked with them, but—they seemed unable to make a serious impression on her. The reason was obvious—she had the dream of Al in between her and these later comers.

During the three years Grace had developed from a child into a woman. She was still slender and lovely, but there was a quiet dignity about her and a feeling of poise that she had acquired only recently. Blackie wondered what Al would think of her if he saw her closely now.

Then he returned to the subject of their missing friend. "You don't know any way we can find him?"

"How can we?" Grace made a gesture of despair. "Everyone has tried to find him and failed. But at least we do know he's in New York. That's something. I should imagine, from his clothes, that he's living in some poor quarter of the city."

Grace, following Blackie's idea, was filled with a sudden determination. Why not try to find Al? She just might be successful and, whether she loved him or not, he was her good friend. He was worth saving!

Grace set out on her journey to find Al the very next afternoon, when she was free from work. Her plan was simple—she simply walked the streets where she had seen him the day before, combing the neighborhood thoroughly. But at the end of the first day's search she hadn't caught a glimpse of him nor found a single clue. It was as if he knew she might try this very thing and so had made himself scarce in that particular neighborhood. Grace appeared at Blackie's in the evening tired-out and disappointed, but not entirely discouraged.

The next day she tried again; for a week she pursued her quest with an indomitable spirit. But each day there was the same story to tell—no trace of Al. Finally Blackie said to her:

"You'd better give up that hunt. This town is too big—you simply can't comb it properly. Al would be able to dodge and keep out of sight if one hundred detectives were after him."

Grace nodded. "I guess you're right. Blackie—I'm just wasting my time. Still, I'm glad I tried; I never would have felt satisfied until I made the effort—after seeing him that one time."

Meanwhile, Al continued his wandering life, never dreaming that Grace was trying to find him. If he had known it, he would have stayed in his room all day to avoid being found. But instead he pursued his casual way, lolling on the docks, eating at the cheapest lunch counters.

After his disappearance he had read the papers carefully for news of Molly and Junior. One day a news dispatch from Paris caught his eye:

"Mrs. Al Stone, known to the Broadway stage as Molly Winton, is one of a number of American women who have filed suit for divorce in the French courts recently. Mrs. Stone alleges extreme cruelty and desertion. It is understood that Mr. Stone, whose whereabouts are unknown, will not fight the case."

"Among the gossip of the boulevards it is said that as soon as Mrs. Stone's divorce is granted, she will marry John Perry, well known bon vivant of Broadway. The couple are seen together a great deal at the Riv-

iera resorts, where Mrs. Stone's beauty and chic attire have attracted a great deal of favorable attention. On the beach she is frequently accompanied by her baby son, Junior Stone.

"Meanwhile Al Stone's old friends from Broadway are wondering what has become of the former successful song writer. At one time it was said that he, too, had come to France, but this was denied by those in the know."

Al had dropped the paper with a bitter smile. So Molly was charging him with cruelty and desertion! The terrible irony of the accusations dazed him for a moment. And Molly was preparing to marry Perry!

Oh, well, it didn't matter; nothing mattered any more! Let her make any charges she wished to get her freedom. Yet the picture of Junior, on the Riviera beach with his mother, remained with Al for a few days. He wondered if Junior still chattered and laughed as he had in the old days and whether he remembered his daddy?

Al looked down at his shabby clothes. He certainly wouldn't want Junior to see him as he appeared now—the personification of failure. No, Junior must never know what had become of his daddy. Al's pride was strong enough for him to make that decision.

After that Al still studied the newspapers for other items concerning his family, but nothing else appeared. Nor did Molly send any letters. Al had left word that his mail was to be forwarded care of an obscure East Side bank, where he had placed his money. But every time he called at the bank for additional money, and asked for letters, he found none from Molly. Letters from Marcus and all his old Broadway friends drifted in, but these he quickly tore up without opening them.

Recently he had ceased to read the papers or to ask for letters. His interest in life was dwindling, narrowing down to the smallest circle. Even this interest was passive rather than active—he did not really care about sleeping, dressing, eating, wandering through the streets. It was done simply through habit—his last hold on life. If that passed from him one of these days it meant dark oblivion for the man who had once been light-hearted Al Stone.

Seeing Grace on the street had proved a terribly disturbing shock to him. In running away he had followed his first impulse—but afterward his conscience had bothered him. He knew Grace's feelings would be hurt. After all, Grace had been one of his best pals back in the old days at Blackie Joe's. He remembered her as she had looked then—a startled fawn of a child. She had certainly developed into a stunning girl.

(To Be Continued.)

An Oil That Is Famous.—Though Canada was not the birthplace of Dr. Thomas' Electric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far afield enough to attest its excellence, for in all these countries it is on sale and in demand.

Has Interesting History

Small Cinema Was Built For Use Of Royal Family

Across the way from the Royal riding school in the labyrinth of streets between Buckingham Palace-Road and Victoria Station is a small and comparatively new cinema with an interesting history. It was built by Mr. E. C. Lascelles, a cousin of Lord Lascelles, for the use of members of the Royal Family. The cinema is on the site of an old ecclesiastical building, and construction of a subterranean passage was commenced so that the cinema would be directly accessible from Buckingham Palace, but that idea was abandoned.

Miller's Worm Powders work so effectively that no traces of worms can be found. The pests pass away in the stools without being perceptible. They make an entire and clean sweep of the intestines, and nothing in the shape of a worm can find lodgement there when these powders are in operation. Nothing could be more thorough or desirable than their action.

Two hundred silver foxes, valued at \$70,000 were recently shipped from Prince Edward Island fox ranches, the chief centre of the fox farming industry in Canada, to Sweden.

Use Minard's Liniment in the Stables.

Newest Use For Airplane

Traced Blackmailer By Following Carrier Pigeon He Sent Out

Aerial photography recently thwarted an attempt at blackmail, in Germany. A wealthy man received a package containing a carrier pigeon and a letter, which stated that if he did not forward a large sum of money by the pigeon within a given time, he would meet violent death. The pigeon was released and followed by an airplane, and an aerial photograph taken of the place where the bird landed. The house of the offender was easily identified. He was an unemployed miner, from one of the intended victim's mines.

WHEN YOUR BABY CATCHES A COLD

In spite of all precautions little ones will take colds—especially during the changeable days of our Fall season. When the first symptoms appear—sneezing, redness of the eyes, running nose—Baby's Own Tablets should be given at once. They will rapidly break up the cold and prevent more serious complications.

Mothers who keep a box of Baby's Own Tablets in the house always feel safe. In fact they are like having a doctor in the house. They are a gentle but thorough laxative that sweeten the stomach and regulate the bowels, thus driving out constipation and indigestion and relieving the baby of the many childhood ailments which are the direct result of a clogged condition of the bowels or sour stomach. They are absolutely safe—being guaranteed to contain no drug at all harmful to even the youngest babe. They cannot possibly do harm—they always do good.

Baby's Own Tablets are sold by all medicine dealers or will be sent by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Manitoba Fisheries

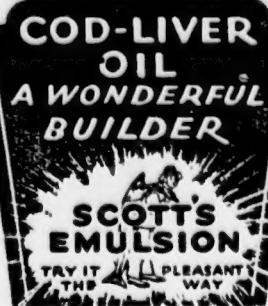

The Manitoba Co-operative Fisheries, Ltd., an organization of 400 fishermen, on Lake Winnipeg, began operation on September 1, 1928. In the first season's operations which ended on April 30, 1929, this new co-operative organization handled 6,100,000 pounds of fish, out of a total catch of 14,500,000 pounds in Lake Winnipeg.

For a vermicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

A Chicken Cleaning Machine

A new machine has been developed which draws the entrails out of a chicken, cuts off the head and the feet and releases the cleaned carcass to an attendant. At a demonstration of this machine before the poultry trades in New York, only six seconds were required for the complete operation. The machine is adjustable for chickens weighing from two to seven pounds; special machines will have to be built for smaller birds as well as for turkeys and geese.

Two carloads of "McIntosh Red" apples were shipped recently from the Okanagan Valley, British Columbia, to South Africa, and one carload to Sweden.

Little Helps For This Week

"Blessed is the man whom Thou chastenest, O Lord, and teachest him out of Thy law."—Psalm xciv. 12.
Do not cheat thy heart, and tell her, "Grief will pass away;
Hope for fairer things tomorrow,
And forget today."
Tell her, if you will, that sorrow,
Need not come in vain;
Tell her that the lesson taught her
Far outweighs the pain.

—Adelaide Anne Proctor.

It would be a poor result of all our anguish and our wrestling, if we won nothing but our old selves at the end of it; if we could return to the same blind loves, the same self-confident blame, the same light thoughts of human suffering, the same frivolous gossip over blighted human lives, the same feeble sense of the Unknown toward which we have sent forth irrepressible cries in our loneliness. Let us rather be thankful that our sorrow lives in us as an indestructible force, only changing its form as forces do, and passing from pain into sympathy.—George Eliot.

Abbreviation Simpler

"S.U.P. 36" or para-benzoyl-para-aminobenzoyl-amino naphthol 3:6 sodium sulfonate is the latest treatment for influenza, described by Dr. Raymond M. Pearce, in the British Medical Journal.

No matter how deep-rooted the corn may be, it must yield to Holloway's Corn Remover if used as directed.

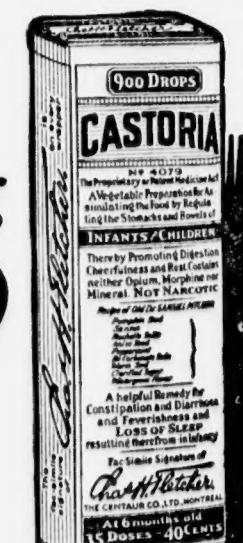

Approximately 2,000,000 acres in new agricultural land have been "broken" in the past three years in those parts of western Canada served by the Canadian National Railways, according to Dr. W. J. Black, the Company's Director of Colonization.

Catarrh

Heat and inhale Minard's. Excellent for colds in head, throat and chest.

A British archaeologist states that a town of 100,000 inhabitants was a rarity in the Roman Empire, and that Rome probably had about half a million people.

An Ailing CHILD

Are you prepared to render first aid and quick comfort the moment your youngster has an upset of any sort? Could you do the right thing—immediately—though the emergency came without warning—perhaps tonight? Castoria is a mother's standby at such times. There is nothing like it in emergencies, and nothing better for everyday use. For a sudden attack of colic, or the gentle relief of constipation; to allay a feverish condition, or to soothe a fretful baby that can't sleep. This pure vegetable preparation is always ready to ease an ailing youngster. It is just as

harmless as the recipe on the wrapper reads. If you see Chas. H. Fletcher's signature, it is genuine Castoria. It is harmless to the smallest infant; doctors will tell you so.

You can tell from the recipe on the wrapper how mild it is, and how good for little systems. But continue with Castoria until a child is grown.

From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did." —Mrs. Milton McMullen, Vanessa, Ontario.

NEWSPAPER ELIMINATION

(The Cranbrook Courier)

The elimination process in the newspaper game in this province goes on apace. The announcement is now made that the Summerland Review will shortly be taken over by the Penticton Herald. On the question of amalgamation the Herald points out that "Recent history of small town weeklies has shown very clearly that conditions have changed greatly within the past decade or two. Automobiles, radios, movies and so on have completely altered the aspect of everyday life, both socially and in commerce. Increasing expense in the printing business has made it plain that only papers in the larger and more centrally located fields can survive. Residents in the communities expect a newspaper of a size and quality which the village weekly cannot provide." With the high cost of producing a newspaper today it is almost impossible for the newspaper in a small town to survive the struggle, and with the present means of rapid transportation the larger papers from the outside monopo-

lize the field. With his limited patronage he is handicapped on every hand. His circulation is not sufficiently large to attract the national advertiser and in most cases the local advertiser gives him scanty support. Many who should lend support to their local paper fail to do so. In glancing through exchanges from the smaller places this fact is quite noticeable. In some even the doctors, dentists and lawyers fail to carry their professional cards, and a glance through the advertising columns would not indicate that there was either a bank, lumber yard, hotel or restaurant in the place. The small town publisher needs the united support of every business and professional man in it, but in most cases he falls away shy of getting what he is entitled to.

GOING NOWHERE LEISURELY

Maximum speeds in traffic are fixed by law. There is need also for fixing minimum speeds. The slow-moving road hog is a menace to safety, his own included.

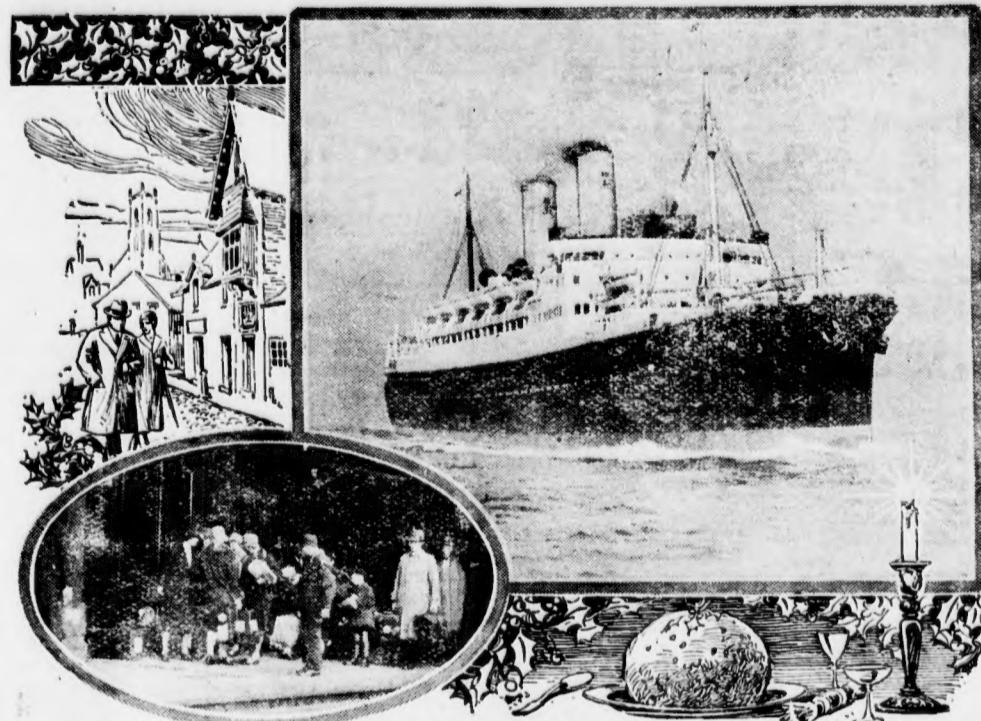

You know the type. He is driving nowhere in particular and taking his time to it. Instead of keeping near the edge where slow traffic belongs he stays out near the middle of the road and no amount of persuasion from behind makes even a wrinkle on his dull brain.

If the highway has several lanes running in each direction this sloth at the wheel takes the lane supposedly reserved for those who know they are going somewhere. That is bad enough; he becomes a far greater nuisance, however, on roads only two cars wide. Then he flourishes in all his ingloriousness.

The only way to pass him is to swing into the lane of traffic going in the opposite direction; and that is very difficult when traffic is heavy. A driver may have to wait for a mile or several before the opportunity comes to speed by, and by that time there are half a hundred fretting motorists bottled up behind the laggard cursing the fate that set him behind a wheel.

Most drivers, of course, realize that going too slow is about as dangerous and far more exasperating to others than driving too fast. Of road hogs there are several breeds, but the one that gets the blue ribbon for pigheadedness is the one represented by the man or woman who goes to sleep on the

highway and forgets he has an elevator. He should confine his driving to the wood lot. —Ex.

Home for Christmas

Mulled ale, roasted chestnuts, real English plum pudding, Tom Smith's crackers, the 'waits', the piping treble of young carol singers, the joyous Christmas peal of the 'Bells of St. Martins', poulterers' shops with their rows of be-ribboned turkeys, the home-y foggy atmosphere of England on a slightly frosty Christmas morning—and the myriad other recollections of Dickens' conception of Christmas at home are the beacons that guide many Britshers homeward in late November and early December.

From prairie farmstead, British Columbia fruit farm, the peach orchards of the Niagara Peninsula, the apple districts of Northumberland and Durham, and from the lovely country of Evangeline a steady stream heads towards Saint John, N.B. whence the Christmas ships sail.

This year five Canadian Pacific ships have been detailed for the Christmas movement—"Minnedosa" November 26, "Duchess of Atholl" Dec. 6, "Montcalm" Dec. 12, "Duchess of Richmond" Dec. 14, and "Duchess of York" Dec. 18th. The last four sail from Saint John, but the "Minnedosa" as usual, closes the Montreal season.

A large number of Canadians from the British Isles and European countries are planning on traveling to their former homes for Christmas, and already the Canadian Pacific is arranging special train services from inland points to the Christmas ships.

'Fresh from the gardens'

This Better Age

The work of a clever cartoonist has for some time past been syndicated to newspapers in America, under the general title "So This Is Progress," wherein he depicts by way of contrast conditions of fifty or more years ago with those of today, as, for example, a party of present-day tourists in a high powered motor car speedng at sixty miles an hour along a highway on which at every vantage point unsightly billboards invite you to chew this gum, smoke that cigar, or use such and such a soap. In contrast he presents the restfulness and beauty of a tramp through the woods, and by brooks, and rivers rambling through the countryside. The work of this cartoonist leads one to wonder sometimes whether the vaunted progress of this age of frenzied speed, amazing machinery, industrialized mass production, insane speculation is, after all, an advance upon the more leisurely life and enjoyments of the last century.

Such a picture is, however, one-sided, inasmuch as while it points out drawbacks of today, it fails to visualize the great achievements and gains to humanity as a whole, and already there is an awakening public opinion to the need for the preservation of beauty and leisure, and emphasis is laid on the fact that these need not necessarily be lost in order to make advancement in other directions.

Recently another artist presented two companion pictures in a single drawing which he labelled "This IS Progress." One picture was a reproduction of the famous painting "The Doctor," presenting the family physician by the bedside of a dying child in a workman's humble cottage, intently watching the child but apparently powerless to stay the ravages of the disease which was slowly taking the life of the child before the eyes of the agonized parents. The companion picture revealed the medical scientist of today at work in his laboratory with his scientific instruments locating and studying those deadly germs and bacilli wh'ch, it is now recognized, are the cause of disease. Thus is war being waged not on disease after it claims its victim, but on the causes of disease. This is progress, and a truer, because a more lasting picture of the achievements of the twentieth century.

Despite all the noise, the killing pace, even the ugliness of this mechanized age, with its drawbacks in the merging of the individual artisan into the cogs of a huge industrial machine, and the increasing worship of the almighty dollar, the standard of living is rising h'igher and higher, and beauty lost in one way is found and multiplied in countless other ways. The average workman in our cities and manufacturing towns is now better paid, better dressed, better housed, better fed, and, working shorter hours under more sanitary conditions, has more time for leisure and recreation than in any previous period in the world's history. His children are enjoying advantages in education and opportunities in life he never had in his youth.

The riches of the world's best literature, formerly reserved for the favored few, are available at low cost through the modern printing press for every home. The beauties of the world's finest music are no longer reserved for the rich and the gifted, but are broadcast by radio to be captured in millions of homes, no matter how isolated they may be. In the last century the man with a horse and buggy for pleasure or business belonged to the select; today the man without a motor car is the exception, not the rule. The telephone is an instant call in the humblest home, even the pioneer settler's sod shack, and the radio is in the mining prospector's cabin.

Even the toll and drudgery of the farm are disappearing with the advent of power machinery and electricity. Soon, even in this last Great West, high power transmission lines will carry electricity into the farm home to bake and cook, chop feed, operate the churn, pump water, and perform numerous other tasks. Even in advance of this, small gasoline engines now do the work on many farms. The telephone, the radio, the motor car and better roads, have already well-nigh annihilated the loneliness of farm life, while educational facilities and medical services are no longer remote.

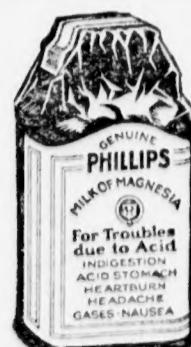

So, notwithstanding certain drawbacks and losses, the world advances, progress is real and altogether worthwhile, life becomes richer and fuller, mankind rises higher and higher as God and nature designed that he should.

On the completion of the new Canadian National Railways hotel at Halifax, passengers will be able to leave their trains, enter the hotel and board a trans-Atlantic steamer w' thout once having to go out from under a roof.

A new Danish process for drying fruit juices, milk, chocolate, rubber latex, and other liquids is said to work rapidly at a low temperature and to cause no damage to the dried products.

Japan is said to have had no written language until about 236 A.D.

In the first second of its fall, a body falls 16 feet.

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. You will never use crude methods when you know this better method. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

Be sure to get the genuine Phillips Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Englishman Invents

New Dance Floor

Savoy Hotel, London, England, Has Only One Of Its Kind In World

A dance floor that rises up to the level of the tops of the tables—at the touch of a button—was "opened" during the dinner and supper entertainments at the Savoy Hotel, London, England. It is said to be the only floor of its kind in the world. Measuring 44 feet by 25 feet, it rises without a break in 30 seconds by means of hydraulic power. Thousands of gallons of water from the four artesian wells below the Savoy are used.

An official of the hotel said: "The inventor is an Englishman, W. J. Huggett, and he and our chief engineer, F. C. Pay, have been working on it for six months. It has cost over \$50,000, and has been constructed between 2 a.m. and 10 a.m., so as not to interfere with our guests' comfort. This enables all guests to see the cabaret without standing.

HOUSEHOLD CARES

Fall Heavily On the Woman Who Is Run Down—Thin Blood the Trouble

To the woman who has her housework to do and her family to attend to, illness is almost a calamity. Many a woman keeps on with her household duties when she is feeling ready to drop. Her head aches, she may be breathless at the least exertion, she has little relish for food, and always feels tired and nervous. The trouble is poor blood—thin, watery blood, and she badly needs the health help that only Dr. Williams' Pink Pills can give her. The rich, red blood which comes through the use of these pills promptly restores anaemic sufferers to good health. Among the thousands who have found new health through the use of this medicine is Mrs. John W. Macdonald, Cardigan, P.E.I., who says:—"I can most strongly recommend Dr. Williams' Pink Pills. I was so run down in health that I was unable to do my housework alone. My husband thought I would never get better, as I had tried different kinds of medicine, with no benefit whatever. I was advised to try Dr. Williams' Pink Pills, which I did, and to my joy I found they were just the thing I needed. I took six boxes of the pills and found myself restored to my old-time good health."

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, nervousness. Take them as a tonic if you are not in the best physical condition and cultivate resistance that will keep you well and strong. Get a box from the nearest drug store and begin this treatment now; or you can get the pills by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Will Preserve Old Fort

Changes At Churchill May Necessitate Guard On Fort Prince Of Wales

That it might prove necessary to place a guard over the ruins of the two-century-old Fort Prince of Wales at Churchill, was the statement made by Hon. Charles Dunning, Canadian Minister of Railways, on his return from a trip of inspection over the lines of the recently constructed Hudson Bay Railway to Canada's Arctic port.

Two hundred years ago, occupant of this center of the Hudson's Bay Company's activities carved their names on the rock walls. Now with the steady increase of visitors to Fort Churchill, the walls at the old fort are being marked up by new names despite the desire of the Department of the Interior to preserve the ruins as the pioneers of the north left them.

"I imagine the department will put guards over the fort," Mr. Dunning said. "It is perhaps the most interesting relic left to us of early Canadian history, a history that pre-dates that of any city on the prairies or the middle United States. Churchill was Churchill and the capital of the western half of the continent from the Arctic Sea to Oregon before there was any Selkirk, or Fort Garry, or Regina. The fort stands as a monument to the men who built it as a link with the 18th century in this country and must be preserved."

Most people believe in law and order as long as they can lay down the law and give the orders.

Iron was smelted to make hoes and sickles as far back as 1200 B.C.

Stop falling hair with Minard's Liniment.

W. N. U. 1812

Ambassador Bridge

Now In Operation

Longest Suspension Bridge In World Between Canada and United States

A great new link between Canada and the United States, the Ambassador Bridge, has come into operation.

The ever-growing traffic between the two countries brings into being the longest suspension bridge in the world—the Ambassador is 1,850 feet long between the main towers. The centre span looms 152 feet above the waters of the Detroit River and at the piers is 135 feet above the water. The total length of the bridge from the terminal in Sandw'ch, Ontario to the terminal in Detroit is nearly two miles.

The roadway of the bridge is 47 feet wide, providing five lanes of traffic, flanked by an eight-foot sidewalk. These lanes for traffic will be used in either direction as circumstances demand. Main towers of the bridge are 365 feet in height and of steel construction.

The magnitude of the structure is indicated by the quantities of different kinds of material used. Structural steel and cable wire weight approximately 24,000 tons; concrete masonry measures 25,000 cubic feet, cement used totalled 40,000 barrels; the roadway pavement is 60,000 square yards, sidewalk 8,000 square yards. Two million rivets were driven during the progress of construction of the steel portions of the bridge.

Proposals for some direct connection across the Detroit River have been made for nearly fifty years. Work was started on the Canadian end in June, 1927, and the American end a month previous.

A Cosmopolitan College

Ontario Agricultural College, At Guelph, Has Students From Many Climes

One of the cosmopolitan educational institutions of the world is the Ontario Agricultural College, located at Guelph, Ont. Registration for the present term includes students from Trinidad, Rhodesia, Bermuda, Mexico, South Africa, Holland, Germany, Peru, Ukraine, Japan, Norway, United States, England, Wales, Scotland, Ireland, Czechoslovakia, as well as many from Canada.

The Ontario Agricultural College has a world-wide reputation as a producer, not only of practical farmers, but of instructors in agriculture. Many O.A.C. graduates are found on the staffs of agricultural colleges in the United States.

Children's COUGHS

Mothers! Give your children a few Pepto tablets to suck every day. Breathing the agreeable medicinal fumes given off by Pepto is like breathing invigorating pine forest air. Pepto soothes the throat and delicate air tubes, strengthens the chest and keep coughs, colds and bronchial troubles at bay. 25c. box.

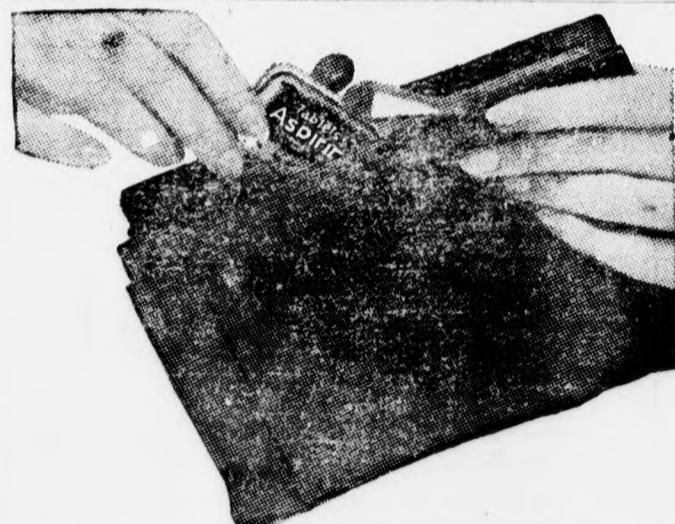

PEPS
The Breathe-able Tablet

Records From Slot Machines

Those who enjoy hearing their voices, may do so by dropping a coin in a slot machine, which is to appear in London streets. It is operated on the phonograph principle. The voice is registered on a thin disc of red metal alloy, of secret composition, which is delivered five seconds after the speaking is finished. It can be used on a phonograph, and with any fibre needle. The record is guaranteed to be permanent.

When things do not come your way it is a sign you ought to be going after them.

Needless Pain!

People are often too patient with pain. Suffering when there is no need to suffer. Shopping with a head that throbs. Working though they ache all over.

And Aspirin would bring them immediate relief!

The best time to take Aspirin is the very moment you first feel the pain. Why postpone relief until the pain has reached its height? Why hesitate to take anything so harmless?

Read the proven directions for checking colds, easing a sore throat; relieving headaches and the pains of neuralgia, neuritis, rheumatism, etc.

You can always count on its quick comfort. But if pain is of frequent recurrence see a doctor as to its cause.

ASPIRIN
TRADE MARK REG.

A SHORT LINE FROM WINNIPEG TO HUDSON BAY

Ottawa, Ont.—The report of the engineers of the Canadian National Railways who have been surveying a short line from Winnipeg to Hudson Bay will be strongly in favor of the extension of the line now running north between Lakes Winnipeg and Manitoba to contact with the Hudson Bay Railway.

This information was received from Montreal recently. The report is not yet completed and will not reach the hands of Hon. C. A. Dunning, Minister of Railways and Canals, for several weeks.

The engineers, it is understood, will not only favor this central line to the north because it would clip hundreds of miles off the present rail distance between Winnipeg and Churchill, but they will point out another vital factor in Winnipeg's northern railway facilities. This factor will be the desirability of providing an air line from Winnipeg to the mining fields of Northern Manitoba.

The central line could be run northward in two ways. It could proceed along the shortest possible line to connect with the Hudson Bay road, which would carry it almost due north, or it could proceed north along the narrow strip of land between Lake Winnipegosis and Cedar Lake, finally to make contact with the Hudson Bay Railway about opposite the present branch lines running to Flin Flon and Sherritt-Gordon. This would give a short line to the bay and also an air line to the mineral developments.

The cost of extending the central road in either direction would be approximately \$8,000,000. It must be understood in regard to this report, that the Federal Government is not committed to build such a line of railway. This inquiry was made because the Manitoba members of parliament requested Mr. Dunning to assist them in this matter. Mr. Dunning agreed, on the express condition that it be understood that the government would not be committed to make any expenditures on construction.

Message From King George

Conveyed Sympathy To Widow Of Hon. J. A. Robb

Valley Field, Que. The sympathy of His Majesty King George, was conveyed to the widow of Hon. J. A. Robb in a message received by Lord Willingdon, Governor-General of Canada and conveyed to Mrs. Robb.

"The King much regrets to hear of the death of the finance minister of the Dominion Government and asks that you will convey the expression of His Majesty's sympathy to Mrs. Robb."

Russia's New Budget

Moscow.—Soviet Russia's budget for the coming year, details of which have been announced, shows the huge total of 11,390,000,000 roubles (about \$5,695,000,000) which is 45 per cent. more than last year, and the greatest in the history of the Soviet state. Large part of the state's revenue is expected to come from direct and indirect taxation. The sum of 345,000,000 roubles will be devoted to education, this being more than 60 per cent. above last year.

Gives Up Long Search

Seattle.—Refusing to believe that his wife, two little girls and his baby son from whom he was separated in the San Francisco earthquake, were dead, a Vancouver man has just ended his 23-year search here in despair. The story was unfolded when the modern Enoch Arden said that he had remarried after searching vainly for his wife and children along the Pacific coast.

Keeping Highways Open

Brandon, Man.—The first start for the season to keep the highways in this district open for travel was made by the provincial authorities last week when a new snowplow was sent to clean up the road between Souris and Balslevain.

Proposed Alaskan Highway

Representatives Of United States Confer With Premier King At Victoria

Victoria, B.C.—Appointment of a joint committee consisting of two United States and two Canadian representatives to thoroughly inquire into the proposed highway through British Columbia and the Yukon territory to Alaska, was mooted at a conference held here between Premier Mackenzie King, Premier S. F. Tolmie, and United States representatives, including Major Malcolm Elliott, president of the Alaska roads commission, and members of the Seattle Chamber of Commerce.

The need for a thorough investigation of all angles of the project was stressed, and it was felt that owing to the size of the undertaking, an international conference was necessary.

The proposal is for British Columbia to improve the present highway between Vancouver and Hazelton, carrying it on to the Yukon Territory; for the Dominion Government to build it to the Alaskan boundary and the United States to take it from there to Fairbanks and thence to Valdez at sea level. Following the conference, Premier King intimated he would need further information before committing himself on the matter, but said he would give it his full consideration.

Protests Against Exclusion

Chinese Consul Would Like Discrimination Against Nationals Removed

Brockville, Ont.—A suggestion that the present exclusion of Chinese immigration to Canada, was humiliating to Chinese national honor and that the act of 1923 should be amended to permit a small quota of Chinese immigrants to enter Canada annually or else to contract a gentleman's agreement with China, similar to that now in force in the case of Japan, was made before the Rotary Club, by Li Tchui, Chinese consul-general at Ottawa. He expressed a hope that the Dominion government would soon see its way clear to remove the present discrimination against Chinese nationals and predicted that with such restrictions removed, a tremendous impetus would be given the already increasing Canadian export trade with China.

Leaving Diplomatic Service

U.S. Minister To Canada Has Tendered His Resignation

Washington.—William Phillips has resigned as minister to Canada. Mr. Phillips, who is one of the leading United States diplomats, plans to quit the diplomatic service probably late next month and settle with his family in New England.

President Hoover accepted the resignation with great reluctance, and sought to induce Mr. Phillips to remain in the public service. However, the minister to Canada explained that he desired to leave office after many years in order to rear his family in the United States.

Stock Judging Competition

Winnipeg, Man.—Joseph Racine, Radisson, is one of the six students chosen to represent the Manitoba Agricultural College in stock judging competitions at the Toronto Royal and Chicago International Winter Fairs which will open respectively on November 19 and 30. Five men constitute a team. The others selected are: J. M. Bowman, Alexander, Man.; Morgan Brooks, Winnipeg; John Connor, Deloraine, Man.; Walter Fraizer, Beulah, Man.; and Earl Rasmussen, Wayne, Alta.

Failed To Open Safe

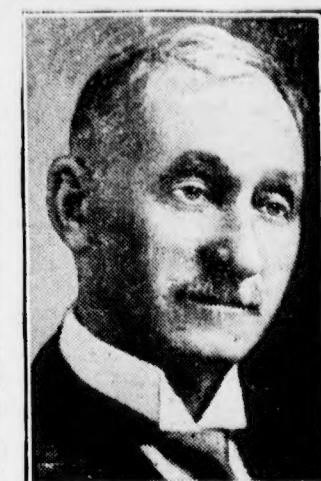

New York.—Eight armed men held up the officer of the day and naval policemen at the navy base in Brooklyn and after an unsuccessful attempt to open a safe containing \$86,000, escaped.

Premier Of Iraq Dead

Bagdad, Iraq.—Sir Abdul Mansur, premier of Iraq, was found dead from bullet wounds recently. No explanation of the shooting has yet been made public.

Government railways of Japan now own 4,000 locomotives.

LATE MINISTER OF FINANCE

Hon. James A. Robb, Minister of Finance in the Dominion Government, who died at Toronto, following a stroke of apoplexy. Mr. Robb was 70 years of age.

British Ambassador To Russia Appointed

Sir Edmund Hovey Has Been Transferred From Mexico

London, Eng.—Parliament having approved resumption of diplomatic relations with Russia, the government is losing no time in fully restoring the breach caused in 1927. The appointment of Sir Esmond Hovey as British ambassador to Russia has been announced. A Russian minister will simultaneously come to London.

Sir Esmond has been British ambassador to Mexico for the last four years. He became a diplomatic attache in 1902, and was appointed to Stockholm in 1904. Shortly afterward he went to Tangier, and in 1906 to Paris.

Later Sir Esmond served in the British diplomatic service in Florida, Cuba, Jamaica, and Persia.

Mexico City.—Official announcement was made here that John Edmund St. John De Bonnaire Monson has been named British ambassador to Mexico, succeeding Sir Esmond Hovey, who will become ambassador to Russia. The new ambassador has been in diplomatic service in Turkey, Japan, France, Persia and Colombia. Japan, France, Persia and Colombia.

Apple Shortage In States

Forty-Five Million Bushels Below Average Is Report

Washington, D.C.—The apple crop in the United States this year is short and the "apple a day" slogan may be suspended temporarily. Compared with that of last year, it is off 23 per cent. and 45,000,000 bushels below the average. Scab damage in the east and worm injury in the west have resulted in an inferior quality. Prices have already advanced and promise to be 25 per cent. above a year ago.

First To Respond

Geneva.—Great Britain, the first country to answer, has accepted an invitation from the League of Nations to attend a conference for the establishing of an international tariff truce. The United States and other non-members have been invited to participate.

Drums for Highlanders

This handsome set of drums has been presented to the 48th Highlanders Regiment, of Toronto, and is the gift of Lieutenant F. M. Ross. The regiment is allied with the world-famous "Gay Gordons" and upon its flags are inscribed many battle honors, prominent among them being Ypres, Festubert, Somme 1916, Vimy Ridge, Hill 70, Amiens, Canal du Nord, etc. The regiment was organized in 1891.

The drums were made in London, England, and were shipped to this country by the Canadian Pacific Express Company on S.S. Duchess of York.

Advocates Free Trade With Great Britain

Proposed Resolution To Be Discussed At Coming Session Of Parliament

Ottawa.—Free trade with Great Britain within five years' time is aimed at in a proposed resolution placed on the order paper of the House of Commons by W. R. Fansher, Progressive, Last Mountain. The proposal, which will be discussed at the coming session of parliament, reads:

"Whereas, Great Britain has for many years been Canada's best customer for agricultural products, particularly wheat and wheat products; and,

"Whereas, the tariffs of other countries are fervently manipulated detrimentally to the exporting of Canadian products, particularly those of agriculture; and,

"Whereas, in international trade it is imperative for any country to buy as much as possible from the country to which she sells, thereby reducing transportation costs to the minimum; and,

"Whereas, for the general good of Canada, we deem it advisable to foster with the Mother Country to the fullest extent, thus keeping trade with the Empire;

"Therefore, be it resolved, that in the opinion of this House that every handicap placed on the free operation of the British preference as contained in our draft schedule, be removed, and, further, that the time has come when the British preference should be progressively increased so as to have free trade with the Mother Country within a period of seven years.

Decline In Grain Receipts

Vancouver, Montreal and Quebec Ports Show Great Reduction

Ottawa.—A decline of 112,731,253 bushels of grain is indicated in the receipts at the ports of Vancouver, Montreal and Quebec for the current year ending Nov. 6, compared with the figures for the corresponding period last year. At the same time deliveries from these ports dropped 102,556,627 bushels.

Total receipts at these Canadian ports amounted this year to 155,266,157 bushels, compared with 267,997,410 bushels for the same period of 1928; deliveries amounted to 158,698,840 bushels as against 261,556,467.

Seeking New Air Record

John H. Mears Will Attempt To Beat Zeppelin's Time

Chicago.—John Henry Mears, of New York, speaking here announced plans for a new attempt at the record for circling the earth now held by the Graf Zeppelin. Mears and the late Charles Collyer, held the world's circling record until the Graf's flight.

The new trip will be started next June, Mears said. The Pacific hop is to follow the path travelled by the Soviet fliers.

Work Being Slowed Up

London.—Rt. Hon. A. V. Alexander, first lord of the admiralty announced in the House of Commons that work on the naval base at Singapore will be slowed down as much as possible pending the result of the five-power naval conference.

BANKS TO TAKE ACTION TO EASE CREDIT SITUATION

Montreal.—Reassuring indication that in the opinion of the banks of Canada, deflation of stock values on the Canadian markets has reached its logical bottom and that the banks are prepared to step in to the breach in the interests of stabilization was forthcoming when the leading banks, acting together, announced here that they would accept 15 per cent. on call loans to brokers on stocks selling over \$30, and 10 per share on issues below that price.

In taking this action to ease the credit position for the brokers the banks will be benefitting a large number of marginal clients, for brokers generally feel that this will enable them to reduce their marginal requirements and preclude the necessity in many cases of sending out further calls.

The moral effect of this construction action it is anticipated will be even greater in restoring confidence than the actual aid rendered, great as this will be.

Toronto.—Action of Canadian banks in reducing the required margin of safety for loans on stocks was interpreted here by leading brokers and stock exchange officials as a step to stem the present tide of speculative dump selling and to place the reassuring hand of high finance on the shoulders of the stock investing public.

C. E. Abbs, president of Toronto Stock Exchange, thought it "a helpful gesture by the bankers, likely to fulfill its apparent intention of inspiring confidence among the public and of having a general reassuring effect."

It will have no effect, however, local opinion felt, toward possible reduction of margin requirements asked of customers by brokers, and brokers will continue to ask the same margin percentage of clients as before.

Fire Damages Seminary

Loss To Quebec Institution Estimated At Half A Million Dollars

Three Rivers, Que.—Fire swept through the oldest wing of St. Joseph's seminary, destroying that section of the institution which was erected in 1870 and was one of the best known classical institutions in the province. No lives were lost, although several of those caught in the building were taken out with difficulty. The damage was estimated at half a million dollars and the fire was the most destructive to strike this city in the last 20 years. Numerous valuable documents and books were destroyed.

Honor Manitoba Citizen

Bronze Portrait Of Late Hon. Thos. Johnson To Be Unveiled In Iceland

Winnipeg.—A bronze portrait of the late Hon. Thomas H. Johnson, former attorney-general of Manitoba, will be unveiled at the celebration next June, in Iceland, of the 1,000th anniversary of the "Althingi," the national parliament of that country.

The portrait will be presented by the Manitoba government in recognition of Mr. Johnson's contribution to the progress and development made by the large Icelandic population of the province.

Police Holidays Are Cancelled

Toronto.—All holidays for members of the Toronto police force have been cancelled; beats in all parts of the city shortened and additional men placed on duty as a result of the series of hold-ups which have occurred here in the past week, and the solution of the crime wave is no nearer tonight.

Awarded Nobel Prize

Stockholm.—Professor Owen R. Richardson, of King's College, London, England, was awarded the 1928 Nobel prize in physics. He is a fellow of the Royal Society and is known for his research work in the theory of electrons. The 1929 physics prize was awarded to the Duc De Broglie, of Paris.

TO CRASH THEM IN THE AIR

Dick Grace, survivor of thirty-one intentional crack-ups, will try just once more.

He and Phillip (Red) Mohun are smoothing out the details for a head-on smash 5,000 feet above the ground.

Dick with a broken neck and so many old bone fractures that he has lost count, and "Red" who carries around a silver plate in his head and two knee caps that used to be part of his shin bone, are going about calmly figuring out how to give death the slip again and live to spend the \$5,000 apiece they will get for the stunt.

The unparalleled thriller will take place as soon as the fliers can get a pair of planes fitted out, weaken them in the right places and rehearse the act until the final pressure on the sticks will bring them together at 250 miles an hour with clockwork precision. The rest is up to fate.

Chances of the flyers coming out alive? Here's what Dick has to say about it:

"We plan to hit each other with ten feet of the leading edge of a wing on each ship. If the wings wash out as cleanly as we expect, neither of us should have any trouble bailing out in chutes.

"But there is the chance, naturally, that a wing will flop over the cockpit of one or both ships, and in that case we will have to do some tail battling to slip clear before we run a tie race with the ground.

"At least 150 pounds of steel will be fitted around each cockpit to protect us from getting smacked broadside by a wing or anything else that might tear loose. The cockpits will be little steel cells and our lives will depend on the correct wing weakening and those protected cockpits."

Thus does Grace dismiss without a thought the possibility of "Red" hitting him motor-to-motor or varying an inch from the ten feet of wing allowed to take the brunt of the terrible impact.

"We won't know what it's all about for a few seconds after we hit," Grace said in summing up the planned crack-up. "The ships might lock together and—oh, well, we'll see."

A STRANGE GAS FOUND

Saskatchewan scientists are puzzled by a new gas struck in a farm well near Bethune. Samples have been sent to the University of Saskatchewan to find out what it is. The gas is absolutely odorless and colorless and was taken from a well on Gross Brothers' farm near Bethune for testing. It is possible that this gas is pure nitrogen.

DON'T MISS IT

**Herbs are Best for
Ailing Kidneys**

Natural, safe and wonderfully healing

Herbs, and herbs only, are used in Gallagher's Kidney Remedy which is one of the old, proved, Herbal Household Remedies that the noted herbalist, James Gallagher, compounded himself more than 50 years ago. And these good herbs, Nature's gift, have great healing power. Even acute kidney ailments like Rheumatism, are relieved by Gallagher's. Bad backaches, dizzy spells and bladder miseries soon stop. Try this trustworthy herbal remedy. It is remarkable—and safe. Sold by MACK'S DRUG STORE, CARBON

and if so its commercial possibilities are very great. The gas comes from the well with considerable pressure, can be heard blowing for some distance and keeps the water in the well constantly boiling.

"Preliminary tests of the gas indicate that it will not burn, that it has no apparent connection with petroleum. It is poisonous, it will not start combustion. It is odorless and it kills insects and animal life brought in contact with it," stated Walter Hastings, research engineer of Saskatchewan. At the same time he told of some of the experiments he had made with it as an anaesthetic, using insects and chickens as subjects. He declared that in this respect its properties were remarkable.

The well in which this gas has been found is a two-foot bore which was being sunk for water and has been drilled to a depth of 48 feet. It is the second well which has been sunk in the same general location within the past year in which the same type of gas has been found.

If it is not nitrogen Mr. Hastings is entirely at a loss to suggest what form of gas it may be. His theory is that air may have been imprisoned

Who Does Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.
